

ADM 241 : Additive Manufacturing Test Prep

During this test prep class students will review concepts of Additive Manufacturing (AM) taught in this course of study. We will review instructions on Additive Manufacturing principles and will be supported by observation of Additive Manufacturing applications in action. Students will participate in practice exercises that incorporate concepts and applications from the lecture and lab of their previous coursework. The SME Additive Manufacturing Certificate serves as verifiable proof of foundational knowledge by successfully completing an exam. NOTE: This course is usually taken during the last 2 semesters of the program of study. (Offered Summer Semester)
