

ADM 255: Application of Design (Capstone)

This is a project- or research-oriented course that emphasizes synthesis through collaborative learning. Students integrate and apply previous knowledge, skills, and experiences they learned in their major and other academic courses to complete individual & team-based projects. Students will perform an individual new concept project and a group, industry-based live project to demonstrate they know the skills learned in the program of study. At the end of the semester, students will be required to present their group project to an industry. The course emphasizes communication skills, critical thinking, problem solving, computer literacy and teaming skills.

NOTE: This course is required to be taken during the last two (2) semesters of the program of study.

Credits: 3

Prerequisites:

Permission of instructor

Program: Advanced Manufacturing
