

ARS 253: Welding Certification Preparation

This course details the requirements for welder/welding operator certification in the aerospace industry. Training includes gas tungsten arc welding (GTAW) and plasma arc welding (PAW) processes and equipment and related safety. Emphasis is on materials in Groups I, II, III, and IV as defined in AWS D17.1:2001.

Credits: 3

Prerequisites:

ARS 251

Program: Aerospace Technology
