

CIS 214: Security Analysis (CompTIA PenTest+)

This course introduces students to the concept of security analysis, or penetration testing, of information systems. Students will evaluate the security of a computer system or network, assessing security risks from the position of a potential attacker. Emphasis is on identifying security flaws and providing technical solutions.

This course is designed to prepare students to take the CompTIA PenTest+ exam.

Credits: 3

Prerequisites:

CIS 171 OR CIS 202 OR CIS 263

Program: Computer Information Systems
