

# MTT 121: Basic Blueprint Reading for Machinists

This course covers the basic principles of blueprint reading and sketching. Topics include multi-view drawings; interpretation of conventional lines; and dimensions, notes, and thread notations. Upon completion, students should be able to interpret basic drawings, visualize parts, and make pictorial sketches. This is a CORE course and is aligned with NIMS certification standards.

**Credits:** 3

**Program:** Machine Tool Technology

**Theory Credit:** 3
