

General Studies - Biology Concentration

Students planning to pursue transfer to a four-year university should complete a STARS guide and AREA V program of study to an Alabama university (or contact the transfer institution if out of state for transferability guidance) to ensure transfer readiness and satisfaction of course and program requirements. Some four-year institutions require two semesters of Physics rather than Organic Chemistry as part of the degree program. Talk with your Calhoun adviser and complete an official STARS guide to guarantee your program of study for transfer is correct.

For more information, please contact Dr. Divya Pradhan at divya.pradhan@calhoun.edu.

NOTES:

*MTH 112 or higher: MTH 113 is required as the prerequisite to MTH 125 Calculus I.
